

The Visual Non-Glossary

Partnering With Your District

Included with your VNG licenses

At The Visual Non-Glossary, our commitment to your district doesn't end with the purchase of licenses—we're here to support schools and teachers throughout the entire school year to enhance language acquisition and content comprehension for all students. Through a collaborative partnership, districts will have access to VNG resources, data analysis, and expert guidance. When your district purchases licenses for the VNG, you have a dedicated Seidlitz partner who can:

- Meet with district and school leaders to brainstorm strategies to support implementation
- Model for district and school leaders effective instruction with the VNG and effective coaching to support this instruction
- Check in regularly about your district's implementation goals
- Provide teacher usage insight reports
- Troubleshoot technical issues
- Highlight free resources from the VNG and elsewhere, including free PD resources, that might support your district's specific needs

Additional professional development

Seidlitz Education is renowned as the leader in providing engaging, transformative professional development. Your Seidlitz partner can provide:

- 45-, 60-, or 90-minute introductory training
- 3-hour deep-dive
- 6-hour (full-day) introduction and deep-dive
- After-school training (virtual only)

We also support teachers and leaders throughout the school year through instructional coaching and on-site school leadership rounds. Click [here](#) for more information.

Ready to partner with the VNG? Contact [Stephen Fleenor](#) for more information.
