

Rooted and Responsive: Trauma-Informed Tweaks for What You Already Do

Virtual via Zoom | August 27, 2026 | 3 pm – 5 pm CST

Many students are struggling emotionally and socially after the pandemic, and culturally and linguistically diverse students often face the greatest risk. In this interactive Zoom workshop, Elise will model how to leverage what we are already doing to make our practice even more trauma-responsive and linguistically rich, using small, user-friendly shifts that drive academic growth. You'll see trauma-informed multilingual education in action as she models real strategies you can implement immediately. Complete the workshop to earn continuing education credit, plus you'll receive a free digital resource of ready-to-use strategies. **Discover, Connect, Respond** is available for purchase as optional supplementary reading.
